As a front-end software engineer with over 8 years of experience, I specialise in building 🚀 high performance, ♿ accessible web applications using the latest technologies. My expertise lies in using Vue.js to create complex, data-driven UIs that deliver a seamless user experience across all devices 📱.

My experience includes working with a wide range of clients and industries. I excel at working within cross-functional teams including 🎨 designers, 🗣️ product managers and 🛠️ back-end developers to deliver projects on time and within budget.
